PREPARING FOR YOUR ADVENTURE

What to Pack

Luggage

We recommend packing lightly. Many Guests find they pack too many clothes and personal items. Each Guest is restricted to one checked bag, one personal item and one small bag per ticketed person. With frequent security changes, we recommend that you check with your air carrier as well as the Transportation Security Administration's (TSA) website www.tsa.gov for current restrictions.

Travel documentation and medical necessities should be transported inside of carry-on luggage.

Luggage Tags

Enclosed are luggage tags that should be completed with your identification information and attached to each checked bag prior to departing on your adventure. These tags will be used throughout your adventure so your Adventure Guides can identify and transport your luggage between hotels.

If you have any questions or concerns about dining at any time during your vacation, your Adventure Guides will be happy to assist you.

SPECIAL DIETARY NEEDS

Adventures by Disney will make a reasonable effort to accommodate some special dietary needs at no additional charge. Fast Facts

- ★ The first settlers to what is now known as the American Southwest were believed to have migrated from Asia via the land bridge of the Bering Straits in 10,000 BC. The early Western settlers, the Spanish, first arrived during the 1500s. Present Native American reservations include the Apache, Hopi and Navajo, which is the largest.
- ★ The Grand Canyon isn’t just a clever name. This national park and World Heritage Site, dating back millions of years, is 1,218,375 acres (493,077 hectares) in size and averages 4,000 feet (1,220 meters) deep. That’s large enough to fit the *Walt Disney World*® Resort 44 times!
- ★ Arches officially became a national park in 1971, due mainly to the unique rock formations for which the park is named. Within the park are over 2,000 arches, with openings ranging from three feet (about one meter), the minimum to be considered an arch, to over 300 feet (about 100 meters).
- ★ The Grand Canyon makes a “grand” appearance at *Disneyland*® Park in California. Guests aboard the *Disneyland*® Railroad pass a 306-foot diorama (about 100 meters) highlighting the famous national park. The Grand Canyon Diorama was added in 1958 and was the largest in the world upon opening day.
